- Not worries for operators, vacations and sick leave.
- Certified professionals focused in quality.

Where most of the companies do not dare to work due to strict requirements, **ETAG Corporation** can do it possible for you. **ETAG** has one of the best technical staffs in Puerto Rico to take care of daily operation activities of your drinking water and wastewater treatment systems. Technical personnel includes chemists, biologists, experienced field supervisors, certified operators, environmental specialists and several external resources that complement our group. For more information about our Contract Operation services, you can visit our company [success stories](#).
